nine to five is proud to launch this exciting line of “cool, affordable and flexible furniture products”. Please welcome izzydesign to your home or work office!

Mr Chuck Saylor (a 25 year veteran to the contract furniture industry and founder of izzydesign) was asked why he started the company in 2001, he responded by saying “Why start izzy? To help bring affordable, good design to everyone. I was also inspired to help support people and create places that would help them work and collaborate with each other – while at the same time, giving them the freedom to personalize their space.”

As stated in their catalogue, “at izzy-design, we make furniture, but we’re about people – their budgets, their comfort, their sense of style and the ways they work.

To put it another way, we do more than just create cool and affordable chairs, tables, privacy and storage. We enhance the ways people work and experience life, whether it’s creating a collection of tables that works with you, or supporting the

simple things in life – feeling the sun on your face or escaping for a moment with a good book. We love the way you live, love and work.”

All furniture shown is from izzy Design.

And **nine to five** loves izzy too – the products are a solution to consumer requirements for something innovative, cost effective, adaptable, creating functional workplaces and work spaces.
